REPRESENTATIVE

DEBORAH SILCOX

Dear Friends,

I hope you and all of your loved ones are safe and well.

As Georgia and the nation work together to get our economy restarted while minimizing the risk of catastrophic health ordeals, I want to share with you some important resources related to COVID-19. As we all fight to contain the virus, I stand ready to assist you and our community. I want to thank everyone for doing their part to contain the virus and especially to extend my deep gratitude to our first responders, healthcare providers, grocery store workers, pharmacists, teachers, farmers, and senior living staffers among many others who have been critical in keeping our community held together.

This crisis has resulted in loss of life, disruption, anxiety, and opportunity. Many are out of work worried about their future or are doing work that exposes them to serious risk. I will continue to advocate for getting Georgians back to work safely while balancing the need of protecting our most vulnerable. I want to express my encouragement and prayers for those experiencing hardships. We are all in this together and will come out stronger from the fight.

The state legislative session is presently suspended in the midst of the pandemic. When we return, I will continue to fight for your interests, safety, and future well-being. As individuals, Georgians, and Americans, we are rising to meet these challenges. If you have a concern, I hope that you will reach out to me either at my email, deborah.silcox@house.ga.gov, or at my office phone **(404) 656-3947**.

Sincerely,

Deborah Silcox

State Representative, H.D. 52 - MARTOC Chairman

COVID-19 RESOURCES

3 WAYS YOU CAN HELP

GIVE BLOOD

redcrossblood.org

We have another challenge moving beyond COVID-19, and it's a blood shortage in our community. Please consider donating blood.

Support Small Businesses:

Please consider ordering takeout from restaurants and leaving a tip, purchasing gift cards from local retailers and continuing to support our small businesses.

Social Distancing:

The most important thing we can all do is continuing to social distance and using common sense - wash your hands, cover your coughs and sneezes, and disinfect frequently used items and surfaces as much as possible.
